Welcome to IBM Personality Insights!

This app will create your very own personality analysis based on your Twitter Tweets.

While this is not very useful in every day life, it sure as heck is very interesting to find out what companies can find out about you in an instant.

If you are curious, head on. There are just a few more steps required to set you up.

I am curious, continue!

IBM WATSON

IBM Watson is an artificial intelligence that was developed by IBM.

It is publicly accessible and will be used by this app for the personality analysis.

We are aware that data protection is very important and so is IBM.

You can read IBM's data policy here.

I understand and agree

Personality Profile

Summary

You are helpful and analytical.

You are emotionally aware: you are aware of your feelings and how to express them. You are empathetic: you feel what others feel and are compassionate towards them. And you are altruistic: you feel fulfilled when helping others, and will go out of your way to do so.

Your choices are driven by a desire for well-being.

You consider both tradition and independence to guide a large part of what you do. You highly respect the groups you belong to and follow their guidance. And you like to set your own goals to decide how to best achieve them.

You are likely to_____

✓ be influenced by family when making product purchases

✓ like Latin music

✓ consider starting a business in next few years
